

MEMO TO: Sun Corridor MPO EXECUTIVE BOARD

FROM: Irene Higgs, SCMPO Transportation Planner

DATE: June 16, 2015

SUBJECT: New Finding of Conformity for the FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects, As Amended

SUMMARY:

On May 12, 2015, the Sun Corridor Metropolitan Planning Organization (MPO) approved the FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects for an air quality conformity analysis. To provide assistance to the Sun Corridor MPO, a conformity analysis for the FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects has been prepared by the Maricopa Association of Governments (MAG). Both the MAG Metropolitan Planning Area Boundary and the Sun Corridor MPO Metropolitan Planning Area Boundary include portions of the West Pinal PM-10 Nonattainment Area and West Central Pinal PM-2.5 Nonattainment Area. The new conformity analysis indicates that the FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects meet all applicable federal transportation conformity requirements.

PUBLIC INPUT:

On May 13, 2015, the FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects, Draft FY 2016-2025 Listing of Projects and the 2015 Conformity Analysis went out for a 30-day public review and comment period. There were no comments received from the public.

PROS & CONS:

PROS: Approval of the new conformity finding is required prior to approval of a project, program, or plan by a metropolitan planning organization. The purpose of conformity is to ensure that transportation actions will not cause or contribute to violations of air quality standards.

CONS: None.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: Implementation of the FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects will not cause or contribute to new violations of ambient air quality standards, increase the frequency or severity of any existing violations, or delay timely attainment of any standard.

POLICY: The FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects cannot be adopted until the new conformity finding is approved. The conformity analysis is prepared in accordance with federal regulations. In addition, federal and state guidance is followed regarding transportation conformity.

Committee Action Requested: Information Only Action Requested Below

A motion to approve the New Finding of Conformity for the FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects, As Amended.

ATTACHMENT A

CONSULTATION ON CONFORMITY ASSESSMENT FOR A PROPOSED AMENDMENT TO THE FY 2016-2035 LISTING OF TRANSPORTATION PROJECTS

The Sun Corridor Metropolitan Planning Organization is conducting consultation on an amendment to the FY 2016-2035 Listing of Transportation Projects. The proposed amendment to the FY 2016-2035 Listing of Transportation Projects is required for several project revisions. The conformity assessment indicates that the proposed amendment satisfies the criteria specified in the federal transportation conformity rule for a conformity determination. A finding of conformity is therefore supported.

The federal conformity regulations at 40 CFR Parts 51 and 93 specify the criteria and procedures for conformity determinations for transportation plans, programs, and projects and their respective amendments. Under the federal transportation conformity rule, the principal criteria for a determination of conformity for transportation plans and programs are: (1) the TIP and Regional Transportation Plan must pass an emissions budget test with a budget that has been found to be adequate or approved by the U.S. Environmental Protection Agency (EPA) for transportation conformity purposes, or an interim emissions test; (2) the latest planning assumptions and emissions models specified for use in air quality implementation plans must be employed; (3) the TIP and Regional Transportation Plan must provide for the timely implementation of transportation control measures (TCMs) specified in the applicable air quality implementation plans; and (4) consultation.

The current conformity determination of the FY 2016-2035 Listing of Transportation Projects for the Pinal County nonattainment areas was made by the Federal Highway Administration and Federal Transit Administration on February 12, 2014. The results of the regional emissions analysis for the Pinal County nonattainment areas are summarized in Table I and described below.

Pinal County Nonattainment Areas Regional Emissions Analysis

For the Pinal County nonattainment areas, there are no adequate or approved motor vehicle emissions budgets for conformity. Therefore, the conformity interim emissions tests were applied. In selecting analysis years, the transportation conformity rule indicates that the years must be no more than ten years apart, the first year must be no more than five years beyond the year in which the conformity determination is being made, and the last year must be aligned with the transportation plan. The baseline and action tests were conducted for PM-10 for the West Pinal PM-10 Nonattainment Area and for PM-2.5 and NO_x for the West Central Pinal PM-2.5 Nonattainment Area for the analysis years of 2015, 2025, and 2035. For each test, the required emissions estimates were developed using the transportation and emission modeling approaches required under the federal transportation conformity rule.

The Maricopa Association of Governments and the Sun Corridor Metropolitan Planning Organization have coordinated on this amendment for inputs to the transportation model and for consultation on the conformity analysis. Both the MAG Metropolitan Planning Area Boundary and the Sun Corridor Metropolitan Planning Area Boundary include portions of the West Pinal PM-10 Nonattainment Area and West Central Pinal PM-2.5 Nonattainment Area. Both nonattainment areas are covered by the boundaries of the two metropolitan planning

organizations. Consequently, transportation conformity is required to be demonstrated for both nonattainment areas by both metropolitan planning organizations.

For PM-10, the projected emissions for the action scenario are not greater than the projected emissions for the baseline scenario for each of the years analyzed: 2015, 2025, and 2035. Since the PM-10 emissions predicted for the action scenarios are not greater than the PM-10 emissions predicted for the baseline scenarios, the conformity interim emission test is satisfied. It is also reasonable to expect the action emissions would not exceed the baseline emissions for the time periods between the analysis years.

For PM-2.5, the projected emissions for the action scenario are not greater than the projected emissions for the baseline scenario for each of the years analyzed: 2015, 2025, and 2035. Since the PM-2.5 emissions predicted for the action scenarios are not greater than the PM-2.5 emissions predicted for the baseline scenarios, the conformity interim emission test is satisfied. It is also reasonable to expect the action emissions would not exceed the baseline emissions for the time periods between the analysis years.

For NO_x, the projected emissions for the action scenario are not greater than the projected emissions for the baseline scenario for each of the years analyzed: 2015, 2025, and 2035. Since the NO_x emissions predicted for the action scenarios are not greater than the NO_x emissions predicted for the baseline scenarios, the conformity interim emission test is satisfied. It is also reasonable to expect the action emissions would not exceed the baseline emissions for the time periods between the analysis years.

Latest Planning Assumptions and Emissions Models

In accordance with federal conformity requirements, the latest planning assumptions and emissions models specified for use in air quality implementation plans were employed for this conformity determination. The latest planning assumptions used for this conformity determination are consistent with the Sun Corridor Metropolitan Planning Organization 2014 Conformity Analysis, January 2014, with the following exceptions:

1. On October 7, 2014, EPA published a notice of availability of the MOVES2014 mobile source emissions model which began a two-year grace period that ends on October 7, 2016, after which MOVES2014 is required to be used for transportation conformity. The October 2014 version of MOVES2014 is used for this regional emissions analysis. MAG has also developed a MOVESLink2014 model that coordinates the TRANSCAD traffic assignment output with the MOVES2014 model.
2. The most recent available vehicle registration data was used in this conformity analysis. July 2014 vehicle registration data was obtained from the Arizona Department of Transportation (ADOT) for Pinal County.
3. MOVES2014 "Regulatory Class" output was used with the July 2014 vehicle registration data to estimate VMT distributions by weight-based vehicle class for each conformity traffic assignment. These vehicle weights were used to calculate the paved road PM-10 emissions for the Pinal County PM-10 Nonattainment Area for the action and baseline scenarios in 2015, 2025 and 2035.
4. The traffic network coded in the 2015, 2025 and 2035 traffic assignments used to estimate baseline emissions for the Pinal PM-10 and PM-2.5 Nonattainment Areas includes regionally significant highways open to traffic, as well as transit service in operation, by December 31, 2014. In accordance with Section 93.119(h) of EPA conformity regulations, the baseline network also includes all regionally significant projects in the Pinal PM-10

Nonattainment Area, regardless of funding source, which are currently under construction or undergoing right-of-way acquisition; are programmed in FY 2014 of the previously conforming MAG FY 2014-2018 TIP; or have completed the National Environmental Policy Act (NEPA) process.

5. Emission reductions for projects in the MAG FY 2014-2018 TIP that pave unpaved roads in the Pinal County PM-10 Nonattainment Area have been assumed in this conformity analysis. The emission reduction credit attributable to a non-regionally significant paving project, completed in the Pinal PM-10 Nonattainment Area at the end of 2014, is assumed in the 2015, 2025, and 2035 action scenarios. In addition, emission reductions for paving projects in the MAG FY 2015-2018 TIP are applied to the 2025 and 2035 action scenarios.

All analyses were conducted using the latest planning assumptions and emissions models in force at the time the conformity analysis began on April 24, 2015. A summary of the latest planning assumptions, including population, employment, and vehicle registrations data used in the regional emissions analysis, is provided in Table 2.

Timely Implementation of Transportation Control Measures

The November 24, 1993 transportation conformity rule preamble indicates that “EPA believes that for conformity determinations on TIP amendments, the demonstration of timely implementation of TCMs should focus on the changes to the TIP which impact TCM implementation. A new status report on implementation of TCMs is not necessarily required for TIP amendments; the status report from the previous conformity determination may be relied on if by its nature the TIP amendment does not affect TCM implementation.” Therefore, for this amendment to the FY 2016-2035 Listing of Transportation Projects, the 2014 Sun Corridor Metropolitan Planning Organization Conformity Analysis is relied on for reporting the timely implementation of transportation control measures since the amendment does not affect TCM implementation.

Consultation

In compliance with federal and state rules, the Sun Corridor Metropolitan Planning Organization is required to provide reasonable opportunity for consultation with state air and transportation agencies, local agencies, U.S. Department of Transportation, Environmental Protection Agency, and other interested parties. For this amendment, a 30-day consultation period is being provided on the conformity assessment contained in this memorandum. Consultation is concluded by notifying the agencies and other interested parties of any approval action taken by the Sun Corridor Metropolitan Planning Organization Executive Board and any comments received during the period of consultation.

TABLE I
 CONFORMITY INTERIM EMISSION (ACTION/BASELINE) TEST RESULTS
 (KILOGRAMS/DAY)
 PINAL COUNTY NONATTAINMENT AREAS

	PM-10 Nonattainment Area	PM-2.5 Nonattainment Area	
Pollutant	PM-10	PM-2.5	NOx
2015			
- Action	83,191	33	1,322

2025			
- Action	83,139	21	852
- Baseline	84,051	23	1,003
2035			
- Action	83,740	23	823
- Baseline	85,125	24	1,071

TABLE 2. LATEST PLANNING ASSUMPTIONS FOR MAG CONFORMITY DETERMINATIONS

<u>Assumption</u>	<u>Source</u>	<u>MAG Models</u>	<u>Next Scheduled Update</u>
Population and Employment	Under the Governor’s Executive Order 2011-04, official County projections are updated every 3 to 4 years. These official projections are used by all agencies for planning purposes. Following the release of the 2010 U.S. Census data, the Arizona Department of Administration (ADOA) prepared a new set of Maricopa County projections in December 2012. MAG developed a set of employment projections for Maricopa County that are consistent with the ADOA population projections and also prepared subcounty population and employment projections. The MAG Regional Council approved the subcounty socioeconomic projections in June 2013. In addition, Central Arizona Governments (CAG) approved the Pinal County subcounty socioeconomic projections, based on the ADOA Pinal County projections, in June 2013.	AZ-SMART (UrbanSim/OPUS)	Under the Governor’s Executive Order 2011-04, official county socioeconomic projections will be developed by the Arizona Department of Administration (ADOA). It is anticipated that ADOA will complete the county level projections in 2015 and MAG will prepare subcounty socioeconomic projections for adoption by the MAG Regional Council within six months after receipt of the ADOA county level projections.
Traffic Counts	The highway models were validated in 2013 for the 2011 base year, using approximately 3,300 traffic counts collected in 2011.	TransCAD	Region-wide traffic counts are typically collected by MAG every 2-4 years, if funds are available.
Vehicle Miles of Travel	The passenger travel demand models were calibrated in 2012-2013 using data from the 2008-2009 home interview survey, 2009 Transearch data, 2010-2011 regional transit on-board survey, 2011 Truck GPS data, and 2012 Airport and ASU surveys. The recalibration effort included a complete update of the regional travel demand model based on the relevant data sets listed above. Trip generation and trip distribution were recalibrated based on the 2008-2009 National Household Travel Survey Arizona Add-On sample and 2006 - 2009 American Community Survey and Public Use Microdata Sample data sets. Mode choice was recalibrated based on the 2010 on-board survey. The truck model was recalibrated based on the new 2009 Transearch data and 2011 Truck GPS data from ATRI. Special generator sub-models were recalibrated based on 2012 regional airports and ASU travel surveys. The external travel model was recalibrated in 2011 based on the 2008 external travel study. Volume-delay functions were recalibrated in 2012-2013 based on the 2011 commercial speed data. The overall base year for the recalibrated and validated model is 2011.	TransCAD	MAG has completed a major update, development and recalibration of the regional transportation model in FY 2013. The FY 2014 Unified Planning Work Program (UPWP) includes funding for the initiation of the next series of travel surveys in calendar years 2014-2016. These surveys will form a foundation for the next round of model development and updates. Various commercial data sources will be used to maintain and incrementally update the models in between the major recalibration updates.
Speeds	The highway models were validated using 49 million traffic speed records purchased from NOKIA for calendar year 2011.	TransCAD	Travel speed studies are conducted periodically to validate the transportation models. MAG has also purchased commercial speed data for future estimation and model calibration purposes.
Vehicle Registrations	July 2014 vehicle registrations were provided by ADOT.	MOVES2014	When newer data become available from ADOT.
Implementation Measures	Latest implementation status of commitments in prior SIPs.	N/A	Updated for every conformity analysis.

MEMO TO: Sun Corridor MPO EXECUTIVE BOARD
FROM: Irene Higgs, SCMPO Transportation Planner
DATE: June 16, 2015
SUBJECT: Approval of the Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects for possible inclusion in the DRAFT Sun Corridor MPO Regional Transportation Plan (RTP)

SUMMARY:

Under federal regulations, the Sun Corridor Metropolitan Planning Organization (MPO) is required to develop a Regional Transportation Plan (RTP) that meets all applicable federal requirements. The Sun Corridor MPO RTP is underway in the development of a long range regional transportation plan. As Sun Corridor MPO develops a RTP, information from projects contained in the Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects may be considered for inclusion in a future Sun Corridor MPO RTP. An air quality conformity analysis was performed on the Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects and demonstrated that the projects meet all air quality conformity requirements.

PUBLIC INPUT:

On May 13, 2015, the Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects, Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects and the 2015 Conformity Analysis went out for a 30-day public review and comment period for. There were no comments received from the public.

PROS & CONS:

PROS: Approval of this item will allow the Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects may be included in a future Sun Corridor MPO RTP.

CONS: None.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects may be included during the development of the Sun Corridor Regional Transportation Plan (RTP).

POLICY: The Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects has completed the Air Quality Conformity Analysis and may be included in a long range transportation plan.

Committee Action Requested:	<input type="checkbox"/> Information Only	<input checked="" type="checkbox"/> Action Requested Below
A motion to approve the Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects for possible inclusion in the DRAFT Sun Corridor MPO Regional Transportation Plan (RTP).

MEMO TO: Sun Corridor MPO EXECUTIVE BOARD

FROM: Irene Higgs, SCMPO Transportation Planner

DATE: June 16, 2015

SUBJECT: Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects, to be submitted to the Arizona Department of Transportation for inclusion in the ADOT Statewide Transportation Improvement Program (STIP)

SUMMARY:

All federally funded projects and regionally significant transportation projects (including local and privately funded projects) that are located within the boundaries of the metropolitan planning area are required by federal law to be included in the Metropolitan Transportation Improvement (TIP) and the ADOT Statewide Transportation Improvement Program (STIP). Projects in nonattainment and maintenance areas must undergo an air quality conformity analysis for the purpose of meeting the federal requirements. On May 12, 2015, the Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects was approved by the Sun Corridor MPO Executive Board to undergo an air quality conformity analysis, which is now complete.

As a newly forming MPO, the Draft Transportation Improvement Program (TIP) will be developed in the near future to coincide with the SCMPO Regional Transportation Plan. In the interim, projects to be included in the STIP must meet all federal requirements prior to inclusion in the STIP. The Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects is proposed to be included in the ADOT Statewide Transportation Improvement Program (STIP) and in the Draft Sun Corridor MPO TIP that is currently under development.

PUBLIC INPUT:

On May 13, 2015, the Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects, Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects and the 2015 Conformity Analysis went out for a 30-day public review and comment period. There were no comments received from the public.

PROS & CONS:

PROS: Approval of this item will allow the Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects to be submitted to ADOT for inclusion in the ADOT STIP and for the transportation projects to proceed.

CONS: None.

TECHNICAL & POLICY IMPLICATIONS:

TECHNICAL: The Draft FY 2016-2035 Sun Corridor MPO Listing of Transportation Projects

and Draft FY 2016-2025 Sun Corridor MPO Listing of Projects underwent an air quality conformity analysis, and were included in a 30-day public comment period, prior to Sun Corridor MPO Executive Board final consideration. The final determination of conformity for the projects is the responsibility of the Federal Highway Administration and Federal Transit Administration.

POLICY: Approval of the Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects, including the allocation of funds and project priorities, may move toward implementation after approval and inclusion in the STIP.

Committee Action Requested:	<input type="checkbox"/> Information Only	<input checked="" type="checkbox"/> Action Requested Below
<p>A motion to approve of the Draft FY 2016-2025 Sun Corridor MPO Listing of Transportation Projects, to be submitted to the Arizona Department of Transportation for inclusion in the ADOT Statewide Transportation Improvement Program (STIP)</p>
